Our projects

Safety Plan

Our Safety Plan Is Arranged To Minimize The Work Hazards And Meet Safe Workplace Requirements.

Dedicated To Provide The Staff With Training Courses And Basic First Aids Workshops So As To Guarantee That The Staff Are Equipped With Safety Knowledge And Comply To The Safety Instructions. Our Plan Is Enhanced By The Following Steps:

- Organizing Training Courses By The Safety Unit , Where All Staff Members Have To Attend The Training To Ensure That They Acquire Full Understanding Of The Safety Procedures Applied Over All The Sites.
- Supervising The Staff By The Site Managers And Front Line Supervisors To Reinforce Training And Ensure That The Safety Measures Being Applied By The Staff.
- The Safety Instructions Are Displayed At Each Unit In The Site As Well As Each Staff Is Provided With The Instructions. In Addition, The Supervisor Will Test The Staff Safety Knowledge By Asking Them Relevant Questions Before Embarking On Work.
- A Substitute Safety Plan Related To The Mission Is Already Also Prepared To Meet Emergency Cases.

Quality Control Plan

Quality Control Plan Is Based On The Following Stands:

- Putting The Specifications Cited In The Concerned Tender Into Practice.
- Depending On The Lab Test Results Approved For The In Process Materials.
- Sharing the Engineering Consultation Bureau in Applying Quality Control Procedures.
- Doing site visits.
- Meeting the Specifications Of The Concerned Tender.
- By Our Customers Located In Different Countries, We Are Able To Supply The Required Materials Within Time Scope.
- Having A Variety Of Transportation Options To Make The Work Proceed Smoothly.
- Preparing Daily And Monthly Reports By The Project And Site Managers Dealing With Nature Of The Work, Percentage Of Performance, Obstacles Faced, On-Site Solutions And Recommendations For The Progress Of The Work.
- Pursuing and Applying Updated Communication Technology to Keep In Touch With the Latest Work Innovations.
- Keeping A Project Management Unit Composed Of Project Manager, Construction Manager, Coordinator, Safety Manager, And Project Engineers.

Having Legal Consultants to Ensure Solving Any Problem or Misunderstanding Requiring Legal Advice.
